INTRODUCTION

Created with the most realistic designs mimicking nature:

Our product portfolio is comprised of Marble, Concrete, Metal and Stone collections with over 30 surface options. Our large format slabs are 160 x 320 cm (63" x 126") in size with 12 mm thickness providing high durability and toughness.

Produced using the latest Italian technology:

We meticulously select the finest raw materials in Europe to produce our sintered stone. Manufacturing process is handled by multiple SACMI Continua+ units accommodating world-class machinery equipped with fully automated systems. We apply stringent quality control measures to produce top quality large-format porcelain slabs in the market.

Selection of matte and polished surface options:

Our polished surfaces have perfect non-wavy mirror like reflection because of using advanced polishing systems. We offer a variety of matte surface options in our portfolio. Our sintered slab designs include book-match, end-match loop and random face options for all types of applications.

Disclosures

Slab faces are supplied randomly. Please contact us for availability of options in stock. The product is subject to slight variances in hue, shade, and color. Pictures in this catalog are only indications of slab appearances.

TECHNICAL FEATURES

Lowest maintenance requirements

Hygienic surface

Liquid repellent and Water resistant

Impact resistant

Frost resistant

Scratch resistant and Abrasion resistant

Chemical and Stain resistant

Fire resistant

Heat resistant

Resistant to bending

Kitchen counter top

Dining table

Table top

Bathtub

Shelves

Shower base

Vanity top

Wash basin

Staircase

Door and window frame

APPLICATION AREAS

Our large format porcelain slabs meet the needs of different contemporary architectural styles and versatile designs. The advantages of hygiene, strength and practicality increase the possibilities of their use in both residential and commercial applications. The dynamic nature and aesthetic refinement of porcelain stoneware make them useful for various purposes giving a unique look to every corner of your space
